EASY TO LEARN, POWERFUL TO USE

With **PocketQS**, you'll create more competitive quotes in about half the time.

Proudly South African
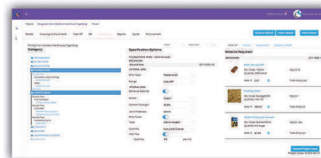

PocketQS
CALCULATE EVERYTHING

FROM ANYWHERE

PocketQS is cloud based software created to assist Contractors, Home Builders, Project Managers & Architects with an all in one Estimating & Takeoff Platform.
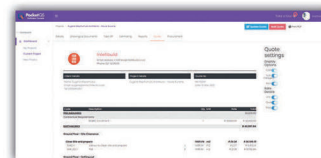

Knock out takeoffs twice as fast

Preloaded Resource formula's cuts the learning curve and limits mistakes

Real-time pricing improves accuracy, gets you out of the 'ballpark' and into the game.

Create branded Quotes and Orders quickly and easily.

POWER TAKEOFF

Measure by Category and avoid missing critical items and losing money post tender.

LINK USERS

Link multiple users on a project to collaborate in real-time.

SAVE TIME

With pre-loaded resource formula's and product libraries you'll be up and running in no time.

SAVE MONEY

Track expenses with built in procurement and budget vs actual reporting.
